40 Gallons and 52 Gallons

Stainless Steel Electric Water Heater

THERMOSTAT AND HIGH LIMIT CONTROLS:

Residential Temp: Min 110°F Max 150°F

HOT WATER CONNECTION:

Outlet connection on the top of the tank (with built in Heat Traps)

THE FINEST PROTECTION:

Laser welded through a concentrated heat source producing high quality, long lasting, 316L stainless steel tank construction (lightweight) - Superior corrosion resistance, eliminates the need for anode rods, protects against harsh water conditions for a lifetime of durability against leaks - Fantastic Limited Warranty

MINIMAL HEAT LOSS:

Heavy-duty insulation

STAINLESS STEEL INCOLOY ELEMENTS:

Low watt operation; Stainless steel screw plugs; Increases corrosion resistance for extended, longer element life

STANDARD FEATURES

- Stainless Steel Tank
- Heavy Duty Insulation
- Electrical Connection Box
- Limited LIFETIME Warranty for Residential Unit

(10 year warranty if not registered online)

IN THE BOX

- T&P Relief Valve
- Installation Manual
- Brass Full Port Drain Valve

EVERLAST ELECTRIC: STAINLESS STEEL WATER HEATER

The Everlast Electric Water Heater combines high quality stainless steel construction and energy efficient operation, providing long draws of hot water without consuming large amounts of energy. A cleverly designed water connection directs cold water to the heating element near the bottom of the tank to minimize the mixing of cold and hot water. Durable components, low standby heat losses, high recovery rates, and the industry's strongest warranty make the Everlast Electric Water Heater an ideal choice for electric water heating needs.

Minimizes Scale Build Up Prolongs Tank Life No Need for Anode Rods Lightweight Construction

NO Anode Rods Needed!

All coated tanks require anodes to delay the inevitable corrosion and tank failure. The average residential water heater lasts about 13 years. The Everlast stainless steel tank will outlast any coated steel tank in the market.
